

This Side Of The Sun

By Phat

A long time ago when first aspiring to become a journalist—now I know what I really meant was to become a reporter—a veteran took me to one side: "Kid, keep track of the mistakes you make. . . . Admit every tenth one. . . . Then they'll think, 'well, that guy is broad and willing to take it, he admits his mistakes' and they won't think of pinning the other nine on you. . . . Guys that pass the buck are never clear of suspicion." . . . That was, and has been excellent advice. . . . Kept me out of a lot of jams—nine times out of ten.

REASON for the above is that I want to get this in before Barney Johnson gets back to town from his vacation in the Sierra fishing country. . . . Last week evidence came to my desk that Johnson had landed a seven and one-half pound German brown trout. . . . I wrote it "7½" pounds and it came out in print "1½" pounds. . . . Now it's bad enough to have those bigger ones get away but when they ARE caught and shrink six pounds between typewriter and press, that really is hard to take. . . . That was the eleventh mistake. . . . It wasn't mine. . . . So, it was a seven and one-half pounder and I'd like to see them make "one" out of that "seven". . . . Just to make the linotype mad I'm going to tell the old story of the ad man who wrote an advertisement for a stage play: "From half past eight to half past ten, they laughed and laughed and laughed again." . . . He was proud of that rhyme but they had to snatch the cyanide bottle from him when he looked at the paper that night. . . . An inspired operator had cut corners and it came out: "From 8:30 to 10:30, they laughed and laughed and laughed again."

HERE'S A MISTAKE I'll admit. . . . It's one of omission rather than commission. . . . Investigating the seventh layer down in my filing cabinet, I found a pink slip of paper. . . . Stuck right between snakes and snoozes. . . . Jotted down was this notation: "6-24 shrn mtn 6m Christmas." Translated, that meant that on June 24 be sure to mention that it is only six months until Christmas. . . . People are always urging early Christmas shopping and I only thought to be helpful. . . . But I forgot to use it. . . . But I am pleased to note that I'm so set against using the abbreviation "Xmas" for Christmas that I wouldn't even incorporate it into my shorthand system. . . . Well, it wasn't much but it would have filled up two inches of space. . . . Just as this is doing, thank heaven.

QUERY from a Cathedral City reader this week started me on a hunt which has so far gotten no place. . . . What's the bounty on coyotes and how do you collect it? . . . Asked six people and got six answers, all different. . . . Seems that two teen-age boys brought down a coyote out there last week. . . . "Why, you'll get a \$10 bounty for that," they were told. . . . So they cut off the head and started in quest of the saw-buck. . . . They came to Palm Springs with \$9.90 of that anticipated \$10 mentally spent before they got here. . . . They were told that coyotes were out of season—so they said—and that there was no bounty. . . . Bang, went the other dime of that \$10. . . . But that isn't all. . . . They took the head back home with them, figuring on trying new sources to get that bounty. . . . But they couldn't keep the evidence. . . . Their parents wouldn't allow them to use the family refrigerator and the hot sun was doing its work. . . . They regretfully had to bury the head, give up the things they were going to buy with that \$10—and undergo a brisk scrubbing.

THE MAIL this week brought one from Earl Mack: "Don't give up on benches. The Village needs them—besides all of us don't like to sit on plush bar stools—we just want to rest." . . . Another from Ray Hillier: "Saw a new wrinkle in picketing the other day. . . . Fellow bought a pair of shoes which hurt him. . . . The merchant refused to exchange. . . . So he hung the shoes around his neck and paraded up and down in front of the shoe store with an 'unfair' sign. . . . They say it's easy to find fault—but if true, why are so many people always looking for it?"

THE WEATHER is holding up nicely, thank you. . . . This statement is for those travelling Villagers who write in consoling cards to us stick-arounders. . . . To prove it, here's a jingle another be-here-all-summer Villager gave me on Wednesday when the maximum failed to get above 96. He's apparently figuring however, on taking a beating in July and August for his verse was: Too soon. No June. Another from the JJ1 file: If Leave I must, Make it August. Believing that the accent doesn't come in the right place for most August jingles I submit one of my own: Just the robust Can take August! HOPE MY BRAKES hold. . . . This looks like the end of the line.

Desert Area Rally To Draw Hundreds

Proof of Growth

Report Reveals Palm Springs High School Broke All Attendance Records in Past Year

Annual reports completed this week at the local high school which are being submitted to the County Office and to the California State Department of Education indicate that the local high school had an Average Daily Attendance for the school year 1946-47 of 274.27. This figure breaks all records for A.D.A. in the history of Palm Springs Union High School.

The A. D. A. figures are the ones used as a basis for paying State money to the local school districts. State enrollment in the local high school during the school year just ended reached a total of 462. This means that during the school year 462 students registered in Palm Springs high school who had not previously registered during the year in any other California high school.

THE STATE enrollment for 1946-47 was 152 more than in the previous school year. The A.D.A. figures as reported to the State Department of Education by the local school office for the last five years are as follows:

1947	274.27
1946	202.41
1945	180.21
1944	162.61
1943	169.98

Whereas P.S.H.S. drew \$20,150 in state money based on A.D.A. for the school year 1946-47, it is estimated by Dr. E. E. Certe, principal of the local high school that the state apportionment for the school year 1947-48 will be \$28,480 on a basis of A.D.A.

THE NEW STATE equalization monies do not enrich the treasury of the local high school district in any appreciable amount due to the fact that the assessed valuation back of each high school student in A.D.A. is so high. Palm Springs will receive only a few dollars more per unit of A.D.A. for the next fiscal year. High schools in California having \$2,000 in assessed valuation back of each student in A.D.A. will receive \$191 per unit. The allowance is graduated downward until schools having an assessed valuation of \$29,500 back of each student in A.D.A. will be paid \$90 per unit. Ninety dollars is the minimum payment for all schools having above the \$29,500 per unit assessed valuation. Palm Springs has more than twice this amount of assessed valuation back of each student in A.D.A., the amount being approximately \$64,375.

The office at P.S.H.S. has submitted its annual reports to County Superintendent E. E. Smith in Riverside together with a budget for the next fiscal year. Preparations are being made for the opening of a new school year on Monday, September 15.

Midnight Still Last Chance To Bend an Elbow

Palm Springs tavern operators will not take advantage of the extra hours of sale offered them by the state law effective next Tuesday, it was announced Wednesday. They will maintain their present hours, closing at midnight.

The decision followed a conference with Chief of Police A. G. Kettmann Tuesday in the chief's office at which time owners and operators of the three night spots still open, agreed that it would be to their own best interests and the best interests of the Village to forego the later hours and stick to the present schedule.

THE OLD LAW, allowing bars to open at 6 a. m. and remain open until 2 a. m., becomes effective Tuesday, July 1. This law was in effect before the war but during the war-time, at the request of the army, the hours were changed from 10 a. m. to midnight. This war-time ruling terminates July 1 and the legislature failed to extend it.

Lounges were automatically permitted to remain open until 2 a. m., if they so desired.

IN PALM SPRINGS there are only four spots with all-year licenses and permitted to remain open in the summer. The other places, with seasonal licenses, good for nine months, closed June 1 to re-open September 1. One of the four spots with a seasonal license closed in June, the Colonial House, and another, The Dunes, will close tomorrow leaving only two open during the remainder of the summer.

When the legislature adjourned without extending the war-time hours, operators of local bars said they would continue to close at midnight "if the others did" or else would remain open until 2 a. m. All, however, seemed to favor the midnight closing.

ONLY THING needed was an intermediary to get the operators together and Chief Kettmann stepped into the role. Bill Dickey, manager of the Chi Chi, Louis Danziger of the Lido and Irwin Ruby of the Dunes met with the chief Tuesday. Agreement on maintaining the present midnight closing hour was quickly reached. Retail liquor stores, now permitted to remain open until 8 p. m., plan to continue at that hour.

As the situation now stands on the not-water front—there will be two places open to buy potatoes, the Lido and the Chi Chi—and they will be closed as now, at midnight.

Two Village Residents

Traffic Victims

Mrs. Mary Redfield and Wally Shelton were in the Community hospital, suffering from painful injuries as a result of a traffic accident which occurred at 9 o'clock last night a mile north of the Southern Pacific railway depot.

Flood Control Discussed And Budget Fixed

A pretentious flood control program for this district is in the making and a budget amounting to approximately \$40,000 to be expended during the fiscal year of 1947-48 was submitted to county supervisors for approval by members of the Riverside County Flood and Water Conservation District, Zone 6.

The meeting, held in the offices of the chamber of commerce, and presided over by Culver Nichols and with Bill Hillery, secretary and Herbert Samson present, compiled budget requirements which necessitate a tax rate for flood control purposes of slightly more than 19 cents per \$100.

FOREMOST on the program will be the completion of the Cathedral City flood control project. An undetermined amount of money is included in the budget asked for Palm Canyon study and control of water.

Eventually, the Palm Canyon project will cost at least \$125,000, according to Hillery. When this project is completed, and it is hoped with the aid of federal and state funds, flood waters that swirl down that canyon, Murray and Andreas canyons and are joined at the south end of town to then sweep on to the Whitewater river, will come under control.

IT WAS ALSO LEARNED that among minor jobs, which it is hoped will be completed during the on-coming 12 month period, Tahquitz and Tacheva washes will undergo a thorough engineering study for the control of flood waters. Flood waters from the latter are sometimes a menace to Frances Stevens school.

U. S. geological water gauge and engineering surveys will be asked and on the result of these studies it is hoped the state will contribute financially to the flood control program in this area.

Council

Final Meeting of Fiscal Year Monday

City Council will wind up the 1946-47 fiscal year Monday night in session at the airport. It will be the last meeting of the official city year.

Financial requirements for the new fiscal year of 1947-48 which starts Tuesday, July 1, will be discussed and estimates of the amount of money needed to operate the city presented. The Council is expected to set that amount Monday. The tax rate will be fixed in August after assessment role figures are received from County Assessor Frank Burchfield.

Council is also expected to set the date for the public hearing on the new land use ordinance recently drawn.

More School Rooms Soon To Be Added

Building Program To Get Under Way To Cost \$350,000

Congestion and crowding of children in the grade schools of this district is expected to be considerably eased with an expected expenditure of approximately \$350,000 for summer construction of additional classrooms, it was announced yesterday.

Funds for the construction program will be allocated from the \$750,000 bond issue voted for these purposes this past winter by residents in the Desert school district.

COMPLETION of the program which is expected to consume the remaining \$400,000 will take place just as soon as building materials and labor costs are stabilized, according to Miss Katherine Finchey, superintendent of the Desert school district.

Not contained in the estimated construction program for this summer is any work that will have to be done almost immediately on 12 acres of land the War Assets Administration plans to give the Desert school district for school expansion purposes.

ALTHOUGH authorities of the school district have not received official word from Washington that 12 acres of Torney General Hospital land is to be deeded by the government to the Desert school district, The Desert Sun has received word that George Whitt, WAA official, recommended to a review board in Washington that this amount of acreage be given to the schools here. This recommendation, it is understood, has been accepted by the board and transfer of the property is expected to take place in the near future.

When this event takes place, school authorities will be compelled under government regulations to commence some sort of improvement of the property within a reasonable length of time.

AROUND THE ACQUISITION of this land, it was learned, a tentative plan of construction has already been discussed by school trustees. It includes the immediate erection of two class rooms to relieve overcrowded conditions at the Francis Stevens school.

Eventually this property will see the erection of an additional school unit with class rooms, offices and even warehouses where school supplies, now stored in buildings throughout the district, can be kept in a central depot. The plans also include machine and maintenance shops and a place where school buses will be kept.

CLARK AND FREY, architects are now preparing plans which include the prospective construction of two class rooms for the Cathedral City grammar school; two class rooms for the Nellie Coffman school; two for Desert Hot Springs, and three rooms at the Cahulla school, which include two class rooms and a kindergarten room.

School authorities also seek additional land for annexation to the Cahulla school and plan to purchase about eight acres at Rancho Mirage for the erection of a school there. Additional land for the Desert Hot Springs unit is also in the program.

Chance to Help

Youth Center Needs A Ping Pong Table

Anybody know where a ping-pong table or two is "kicking around?"

If anybody does, Mrs. Harold Hicks, chairman of the Youth Center Committee of the Welfare and Friendly Aid, would like to know too, and obtain same for use by the boys and girls when the Youth Center building is opened July 12.

Also needed are books and magazines for the reading room and library for which donors will be gratefully thanked.

Boyd Goes East

State Assemblyman Philip L. Boyd left Riverside Wednesday to join his wife Dorothy and two children, Spencer and Lydia, at their lake cottage in Michigan.

Accompanying the state lawmaker are two other children, Libya and Douglas.

Legion Gets CPA Permit for Building

Original Ruling Reversed; Actual Work Planned Soon

The green go-ahead light was given the Owen Coffman Post of the American Legion, in its proposed construction of its Wars Memorial building.

Permit, allowing the erection of the building was received from the Civilian Production Administration, Emergency Housing Division. The first application for a permit to the federal bureau weeks ago.

SUCCESS OF THE SECOND application was attributed by Commander John Connell to the interest on the part of village civic organizations and the chamber of commerce, who wrote letters to the CPA, stressing the need of the Wars Memorial building in Palm Springs.

"I want to take this opportunity," declared Commander Connell, "to thank those civic organizations and the chamber of commerce in going to bat for the post."

Past Commander Gerald Sanborn, under whose regime the first and second application had been filed, received the permit through the mails Thursday morning and immediately turned it over to the present commander.

CONNELL began at once to start the preliminary wheels of construction rolling. He said that Clark and Frey, architects, will have the plans of the Wars Memorial building completed by the middle of next week and bids will be asked of building contractors as soon as possible thereafter. Assurances have been given the Legion, Connell said, that a loan of approximately \$30,000, negotiations for which had been started sometime ago, will be forthcoming. This amount will be matched with an equal amount now in the building fund of the Owen Coffman Post.

ORIGINALLY it was hoped that the Wars Memorial building would be completed in time for Armistice Day, November 11. Now Commander Connell, was in hope that at least a portion of the building will be finished by that time with the entire building completed by January 1, 1948.

"If the building is up and a floor laid by November 11," Connell said, "we will at least have a dance there on Armistice Day," added the jubilant Legion executive.

There was complete satisfaction in many quarters that at last the Legion would have its building—a structure that would not only provide a permanent

See LEGION PERMIT, Page 7

Upright Ranch Building Survives Flames

Flames in a building constructed along the lines of a telephone booth on the Arenas ranch at 9:22 a. m., Wednesday summoned the fire department.

The structure, built in the architectural style so prevalent in the days before modern plumbing and so popular with Hallowe'en pranksters of a generation or so ago, was saved from being wholly lost by the firemen.

The report did not state whether it was occupied at the time and if so, how the occupant fared, or how it started.

Summer's Here

New Season Comes In With a 105 Mark

Spring went out like a lady Friday with a nice modest 91 maximum but summer barged in with a robust 105 and 14 hours and 20 minutes of sunshine, the longest day in the year, Saturday.

That 14 hour and 20 minute day was for the rest of southern California. In Palm Springs the mountains obligingly drew the curtain a little earlier.

Summer, according to astronomers, officially began after the sun had set, however. They timed the exact arrival of the new season as 10:10 p. m.

The last night of Spring, 1947 brand, produced a mild 66 as the minimum but it dropped back into the 50s as summer began.

Police Officer Seriously Ill

Severe abdominal pains accompanied by a high temperature caused Dr. Hugh M. Stephens to rush Police Officer Dale Thompson to the Community hospital at 4:30 a. m. Wednesday for observation.

Yesterday Dr. Stephens reported that his patient had shown some improvement and hospital officials declared that Thompson had spent a "fairly comfortable night."

Cause of Thompson's illness was not definitely diagnosed and he will remain in the hospital for observation and x-rays, Dr. Stephens said.

Health Affairs Here Checked by County Officers

District Attorney William O. Macky, and Dr. Warren Fox, county health officer, were in the Village Wednesday to discuss health and sanitation laws and their enforcement with city officials.

The two county officials met with City Manager William Alworth, City Health Officer Dr. O. B. McRory and Warren Slaughter, deputy city attorney.

Action Brisk Along 4th District Front

Fourth district politics opposed to the selection of Harry Harper for the vacancy existing on the County Board of Supervisors were "scrambling" hard and putting on last ounces of pressure for their favorite candidates, both on the desert and in Sacramento.

Considerable amount of weight is being thrown about in the proper spots by friends of Wallace Rouse, Indio City attorney and former justice of the peace.

IN COACHELLA, politicians are counting on the selection by Governor Earl Warren of William Kersteiner, successful and wealthy farmer, director of the bank there and owner of a small water company.

From all obvious indications, Harper is at present on the inside track, with betting two to one that the governor will heed the appeal of his backers and appoint him to the position. Harper, originally Rouse's only rival for the job of supervisor, withdrew in favor of Kersteiner, but has told friends that he will accept the position if the governor does not name Kersteiner to the job.

STATE ASSEMBLYMAN Phil Boyd, prior to his departure for his vacation in the east, is reported to have filed a report with the Governor, detailing his impressions of Rouse and Kersteiner, the latter whom he met for the first time last week. He is said to favor the drafting of Harper for the job, but no confirmation of this report could be obtained. In Banning and Beaumont to have said.

Village Will Be Center of Big Funfest

First Annual Summer Get-Together at Tennis Club Tonight

Everything is in readiness for tonight's first annual All-Village Hayride.

Long trucks and equally as long trailers, padded for comfort with real hay will move up and down Palm Canyon drive to pick up and transport all Villagers wishing to attend, to the grounds of the Palm Springs Tennis Club, where the event is to be staged.

The affair, which is being staged by Palm Springs Post 34 of the AMVETS, bids well to become one of the most colorful events of the summer, judging from the interest already indicated, according to Don Cameron, chairman in charge.

EXPECTED TO CONVERGE upon the city from Palm Springs, Palm Village, Rancho Mirage, Palm Dell and Cathedral City are many residents of those communities. Transportation for these persons will be furnished by Rancho Mirage, Palm Dell, Bill Reichel and Don Maher.

Maher is expected in town driving his flying earthbound tractor which will be pulling a long trailer loaded with residents of communities to the south of Palm Springs. He, like the other drivers, plan to rendezvous at the Palm Village Inn, where their passengers will be waiting.

OBJECT of the All-Village Hayride, according to the AMVETS is to get summer residents of the desert area better acquainted with each other, and a spirited program of community dancing, singing and entertainment is planned with that in mind. Hostesses will move among the participants introducing persons to each other.

A low fee for admittance, 75 cents was purposely decided upon, so that everybody will be financially able to attend the affair. Barbecued hotdogs and refreshing drinks will be sold at a minimum price, according to Bill Putman and Rudy Salazar who are in charge of this department of the gala evening.

ENTERING into the spirit behind the event, Lee Bering, manager of the Palm Springs Tennis Club has donated the use of the spacious grounds for the event.

Music will be furnished by Rudy's Rancheros, playing stringed instruments, and according to Salazar, will play everything from the latest hot numbers to the old fashioned waltz and cake-walk.

It was announced that reservations to the affair will not be necessary. Admission can be purchased on entering or beforehand at the Chi Chi or the Lido.

"HOP ON THE HAYWAGON when you see it coming down the street," declared Cameron, "and if you are too old to do that, it will stop for you on signal," he added.

Cameron said that the trucks will stop for short periods in front of the Chi Chi and the Lido to pick up passengers for the purposely slow haul to the Tennis Club, in order to give the riders an opportunity to sing and have fun.

"That song 'The Beer Barrel Polka,' will only half tell the story of the fun Villagers will enjoy at the event," chorused Cameron, Salazar and Putman.

Believe it or not, you should be waiting for a hay wagon tonight.

Bang!

Fire Chief's Instinct Puts Him on Crutches

Bill Leonosio, fire chief, is a strong believer in the tenet that fire prevention is more economical in money and time than fire subjugation.

He automatically does things to eliminate fire hazards, such as stepping on glowing cigaret butts on the sidewalk and so on.

So when he saw a whisp of smoke arising from an object on the sidewalk, the other day, he instinctively stepped on it before he realized it wasn't a cigaret. It wasn't. It was a firecracker which some one had tossed there just before he arrived on the scene—despite the fact that firecrackers are banned by law here.

At Community hospital, x-rays revealed two broken toes. As soon as the fire chief gets off his crutches he's going to look up the guy who threw that firecracker.

**New Grill Open
7 Days a Week**

In charge of the Royal Palms Grill, formerly the Royal Snack room, are "Spec" O'Donnell and Fred Van de Benken.

Always a popular "snack" spot, the newly named grill will offer not only light lunches and snacks but will serve dinners as well.

O'Donnell and Van de Benken, who operated the Gibbs Tahquitz fountain during the season, are keeping the grill open seven days a week from 5 a. m. to 9 p. m.

**Only One Plate
Every 5 Years**

It will be easier to remember the number of your automobile license plate after January 1, 1948. Not only because it is going to cost you twice as much as it

has been costing you but because once memorized, you won't have to learn a new number until 1953. Among the bills signed by Gov. Earl Warren during the recent session was one which provides for one set of plates for five years. They will be undated and a small insignia issued each year to attach to them.

Ross Detweiler in
Pomona Ceremonies

Ross H. Detweiler, son of Mrs. Susan Talmage of Palm Springs and Desert Hot Springs, was among the 218 seniors who received honors at the recent Pomona College commencement at Claremont.

It was the 54th graduation program for the college with an impressive program presented.

Flat hair is curly, while circular hair is straight.

**Motoring Will Be
More Costly Under
New Highway Law**

Villagers will start paying more for the gasoline they use starting Tuesday when the new cent and one half state tax rise goes into effect.

Ordinary fuel which now costs 21½ cents a gallon will be 23 cents on July 1. Ethyl gasoline will be 25 cents per gallon except for some special premium fuels which are now 25 cents. They'll go to 27½ cents.

COST OF MOTORING will be higher in other respects, too, but most auto owners will not feel this until the first of the year or when their drivers' license expires. For the new law provides a hike in the cost of plates and imposes a fee for drivers' licenses which used to be free.

Under the terms of the act license plates will be \$6 annually instead of \$3 and the fee for drivers' licenses will be 50 cents

per year instead of nothing.

UNDER THE NEW LAW, Villagers will pay the federal government 1½ cents on every gallon of gasoline they buy and the state 4½ cents. Ordinary gasoline is 17 cents and Ethyl 19 cents without the taxes.

Money derived from the new taxes and fees is to be earmarked for a comprehensive system of modern up-to-date highways and freeways.

Garlic, used as a base in certain germ-killing solutions, will destroy some germs that even penicillin cannot check.

Giant earthworms in Australia attain a length of six feet.

Help for the Blind

A CHECK for \$20,000, representing the first payment for a fund of many thousands of dollars, is received by Mrs. Adrien Falk, leader in the Guide Dogs for the Blind, Inc., training school at San Rafael. The money was contributed by members of the Alcoholic Beverage Industry of California to furnish seeing eye dogs for every blind veteran declared eligible to receive one by the Veterans Administration. Joseph Tonkin, chairman of the "Eyes for Heroes Foundation," presents the check, while James L. (Roy) Rogers, co-publisher of the Beverage Industry News, sponsor of the fund raising campaign, looks on. Any veteran in any part of the nation is eligible to apply for one of the seeing eye dogs.

Villagers Really Behaving Boosting While on Vacation

By BARBARA SCHILLY

(From Honolulu, T. H., under a June 21 date, comes this story from the Hawaiian Islands. It corroborates the theory that there is some sort of a germ in the desert air which inoculates people so that once here, they never actually go away. No matter where they are, they take Palm Springs with them.—Ed. Note.)

VILLAGERS who are sticking it out on the desert this summer

or who won't get away until later, will probably be interested to know how other Villagers, who didn't stay through May or croon about June, are behaving when away.

First of all, believe me, they are behaving. And Honolulu and environs look like old home week in Palm Springs.

AMONG THOSE PRESENT now and recently were a lot of people you see on Palm Canyon drive, out on the horse trails and all around the Village.

Johnny and Tani Boyle are here, Hutch and Billy Moseley, the Bob Kerstners (Billy Dove), Colonial House's Major and Mrs. Davis and Ruth Sougey of La Paz just left.

We are all enjoying Hawaii but just leave it to Palm Springers instead of our coming to Hawaii, we seem to be bringing Palm Springs here. Whenever any of our fair villagers get into a conversation, seems the talk just automatically turns from Diamond Head to Palm Canyon drive. Never saw such a bunch of boosters.

THE OTHER NIGHT at the Outrigger Club Johnny Boyle probably broke a precedent by singing "Cool Water" to an audience used to music on the order of "Aloha Oe" or "The Hawaiian War Chant." You can believe that Wilbur and Thelma Davis have been plugging Palm Springs to the utmost and although Ruth Sougey is wild about this place,

Link Seigel With Night Club Here

Jimmy Collins, 44, New York and Hollywood night life figure who for a brief time had an interest in The Stables here, must serve a 20 to 40 year prison sentence for his part in the Mergenthaler Linotype company \$804,000 swindle. He was sentenced Monday by Judge Samuel S. Leibowitz in Brooklyn.

In pronouncing sentence Judge Leibowitz indicated Benjamin (Bugsy) Seigel, big time mobster, slain in Beverly Hills last week-

she has everyone on Waikiki Beach Palm Springs conscious. The rest of us aren't letting up either.

Just amazing what that desert air seems to do to people's loyalty... or maybe they just like the place.

Aloha (oops, I mean). So long pardner.

Wooden images of gods, regarded as sacred, served as dolls for American Indian girls. The dolls were used in religious instruction.

"How did the detective discover that the burglar was dressed as a woman?" "He passed a hat store without looking in."

end, might have been interested with Collins in the local venture.

CONVICTED recently, Collins had applied for probation but refused to divulge disposition of \$350,000 of the \$804,000 embezzled from the Mergenthaler concern.

Judge Leibowitz, in denying probation, said the report showed that Collins had been associated with Seigel on the west coast. He said that investigation to show the extent of this association would continue.

NIGHT CLUBS and swanky restaurants in Hollywood and other southland points, dispatches said, were among their joint interests. At the time Collins, who says his real name is Julius Lobel, was arrested, he was associated in the group which had purchased The Stables here.

In Brooklyn officials, investigating the case, intimated that the missing money Collins is reported to have sequestered, is tied up with Seigel's multimillion dollar underworld interests and that Collins feared for his life if he talked.

FREQUENT VISITORS here, Seigel and Virginia Hill in whose rented mansion he was living when slain, were known to sev-

Some Business, Not Much, Lots of Fun Planned by Vets

The July 1 meeting of Owen B. Coffman post, American Legion, will be held at the State Highway Maintenance station on North Palm Canyon drive, above Windy Point.

The business session will be short—with emphasis on the short—according to Commander John Connell—and will be followed by refreshments on the lawn.

"Old legionnaires are urged to attend. Bring your wives, if any, and if single, your girl friend," said the commander. "Bring a swimming suit if you like to swim. There's going to be a moon and—the weatherman says, no wind."

The station is the home of Mr.

Village Pastor and Family at Canyon Retreat

The Rev. and Mrs. James H. Blackstone Jr., are spending the summer months at Boulder Lodge in Forest Home, Mill Creek Canyon. Their three children are with them. They expect to return to Palm Springs early in September.

Rev. Blackstone is participating in several of the summer Bible sessions which are being held at the Forest Home Conference grounds.

Service in Community church will continue all summer with guest preachers occupying the pulpit.

and Mrs. Harold Lienau, prominent in Legion and Auxiliary circles and past heads of both.

How to Hitch Up a Horde of Horses

Each time your foot moves your Buick clutch pedal, you hitch or unhitch the surge and drive of that Fireball horse-power under the bonnet.

You hardly realize it because this clutch is so light under your toe—and so sturdy and positive in action.

Much of the secret lies in the special crown spring and clutch plate which have been designed to work so well together. To your service man who cares for Buicks, these and all the parts of the clutch

are an open book. He understands how they work with each other. He knows just what lash the pedal should have to keep the clutch operating at its best. It's one of the things he checks almost automatically.

So this is another good reason to bring your car here to men who know Buicks best—men who have both the know-how and the know-why—for whatever service your car needs, whether it is minor adjustment, tune-up or regular lubrication.

Final Services at Episcopal Church Until September

Final services for the summer season will be held at St. Paul's in the Desert, Episcopal church, next Sunday. Two services are announced, at 8 and 11 o'clock Sunday morning. The church will re-open in September.

Holy Communion will be offered at both hours and communicants, remaining in the city, should avail themselves of this opportunity to make their communions, the Rev. Robert M. Hogarth, rector, said.

Rev. Hogarth will preach the final sermon of the series, "Religion and Health" on the special topic "God's Healing Miracle."

The rector will leave Palm Springs Thursday, July 3 for a long holiday rest in Minnesota and Wisconsin. His mail address until September 1 will be 514 Eighth Avenue Southwest, Rochester, Minnesota. It will be forwarded from there to temporary locations.

During the summer an executive committee of three members of the vestry will be in charge of necessary business. They are Francis F. Crocker, Roy W. Colegate and Herbert Samson.

'Values' Topic at Community Church Sunday

"Life Time Values," will be the subject of the sermon Sunday at Community church by the Rev. James W. Blackstone at the morning service.

During the summer months the church meets at 10 o'clock on Sunday mornings with the Sunday School meeting at the same hour. There is no 11 a. m. service. The evening service will be at 7 o'clock and will consist of a song service and a short gospel talk on "A Matter of Ownership."

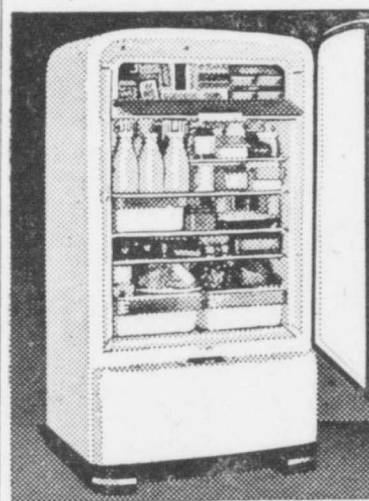

SPEAKING on "Life Time Values," Rev. Blackstone said that in this day of material advance and scientific achievement "we need to look deeper into the realities of life to see the things that are of lasting significance."

"So much of our modern life is superficial and has only a passing value. But when these things are stripped from us we realize that, after all, they were not so important and that other things should have been given greater prominence."

Special music at the morning service will be a duet: "When I Look Into My Savior's Face," sung by Hall Miller and Rev. Blackstone.

By the time 14,800 A. D. arrives, the stars will have changed in position and the brilliant Vega will be our polar star.

'Christian Science' Lesson Sermon Topic

"Heal the sick, cleanse the lepers, raise the dead, cast out devils; freely ye have received, freely give." These words of Jesus from Matthew will be the Golden Text of the Sunday Lesson-Sermon on "Christian Science" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston.

A Bible citation from The Acts relates that a man, lame from birth, "seeing Peter and John about to go into the temple asked an alms. . . . Then Peter said, Silver and gold have I none; but such as I have give I thee: In the name of Jesus Christ of Nazareth rise up and walk. And he took him by the right hand, and lifted him up; and immediately his feet and ankle bones received strength. And he leaping up stood, and walked, and entered with them into the temple, walking, and leaping, and praising God."

Mary Baker Eddy writes in "Science and Health with Key to the Scriptures": "Is it error which is restoring an essential element of Christianity—namely, apostolic, divine healing? No; it is the Science of Christianity which is restoring it, and is the light shining in darkness, which the darkness comprehends not."

Highway to San Diego on Improvement List

Of interest to Villagers who frequently drive to San Diego or the beaches along the southern coast, is word from State Senator Nelson Dilworth that Highway 395, the inland route, is included in the state highway program for early improvement.

The stretch between March Field and San Diego is among projects listed.

Fr. James Creaton Now Officiating at Catholic Church

The Reverend James Creaton is now acting pastor of Our Lady of Solitude, Catholic church, and is expected to remain here until the return of Father Michael O'Connor, presently visiting in Ireland, the land of his birth.

The new pastor replaced the Rev. C. J. Moynihan, and was acting as the pastor of the church in the absence of Reverend O'Connor. Father Moynihan has been transferred to a Pasadena parish.

Father Creaton, who is also a native of Ireland, recently arrived here from that country. He came here directly from the St. Bernardine's Catholic church at San Bernardino where he spent a few days until ordered to Palm Springs by the Right Reverend Bishop Charles F. Buddy of San Diego.

Masses on Sunday, Father Creaton announced will be held at 6:30 and 8:30 a.m. and weekday masses at 7:30 in the morning.

Randall Goes To Oakland Office of Western Air

James Randall, son of Mrs. Peggy Randall of Rancho Mirage, is now in the Oakland office of Western Air Lines. He was transferred there last week.

He was connected with the local office for several months during the season.

Mrs. Randall is on the staff of The Desert Sun, in charge of the bookkeeping department.

The immediate problem is to get the Japanese production to the point where it can fulfill the needs of the Japanese people for minimum living conditions.—Gneral MacArthur.

The increase in total fruit consumption during the past decade occurred mainly in the form of canned fruit juices.

A carriage containing lunch held ready in case the royal appetite requiring appeasing accompanied Louis XIV, of France, wherever he went.

Christian Science Lecture on Monday

"Christian Science, Heard of Liberty" will be the topic of a lecture to be heard over Radio KFWB next Monday evening at 8 o'clock, leaders of the local Christian Science church said today.

George Channing of San Francisco, a member of the Christian Science board of lecturers, will be the speaker.

A housefly is in the prime of life at the age of five days.

Stiff Penalty Echoes FWI

Smouse Must Serve Eight Months, Be Good Three Years

Aviator Jacob Warren Smouse who flew his plane over Palm Springs allegedly while intoxicated, ended up doing a "ground-loop" in Judge Russell G. Waite's court Tuesday afternoon.

Eight months of industry at the county road camp plus three years probation was the sentence imposed on Smouse by the judge following a plea of guilty to the charge of flying an airplane while under the influence of intoxicating liquor.

"The House of Courteous Service"

by Smouse and Judge Waite followed the recommendation of the probation officer in meting out justice.

The Costa Mesa flier who was arrested here March 2 had flown his plane over and about the local airport in such a manner as to endanger life, other airplanes and earthbound traffic.

When he landed his flying craft, two Palm Springs police officers, summoned there by Mrs. Mary Nelson, airport messenger, took Smouse into custody, subjected him to a sobriety test and when he failed to pass, placed him behind bars with a possible penitentiary sentence staring him in the face.

AT FIRST Smouse pleaded not guilty, claiming that he had lost his way from Costa Mesa where he rented the plane and what was believed drunkenness on his part was actually induced by fear of crashing due to a failing supply of gasoline in his ship's tanks.

The trial was postponed several times while the defendant was free under bail. When he failed to comply with court procedure about three weeks ago, Judge Waite set Smouse's bail aside and remanded him into the custody of the sheriff, who, in turn, placed the flier behind the bars of the county jail.

CHANGING his mind, Smouse then decided to plead guilty and ask for probation. Tuesday when his petition for probation came up, the sentence was handed down but not until the Judge had severely castigated the aviator who operated a sky-flying vehicle with John Barleycorn riding as a jolly but dangerous passenger.

The three years of probation was granted with the proviso that Smouse serve eight months in a Riverside County road camp; refrain from drinking liquor for three years; abstain from violating either ordinance or laws, and to report in writing to Riverside probation officers once a month after his eight months of road camp duty is finished.

The arrest of the flier in March marked the second such arrest—flying an airplane while intoxicated—in Palm Springs and in Riverside county.

Social ACTIVITIES

Miss Kelly Weds Herbert Bartlett In Ceremony Here

In a colorful outdoor, double-ring ceremony held in the patio of the home of Mrs. Jessica Pierce of Palm Springs, last Saturday, Miss Ruth Storey Kelly of Toronto, Canada, became the bride of Herbert Bartlett of this city.

Rev. James H. Blackstone Jr. of Palm Springs Community church officiated. The bride was lovely in a dusty rose crepe dress with white accessories. Her bridesmaid, Miss Grace Pyburne, of Los Angeles, contrasted beautifully in a soft blue crepe dress also with white accessories. Both wore unique headresses of heirloom Irish lace belonging to the bride's mother and corsages of mystery gardenias.

The groom was attended by Ray Karge of Palm Springs, and the bride was given away by George Moore, Sr., of Boston, Mass.

Honoring the happy and popular couple with a delightful reception immediately following the ceremony, were hostesses, Miss Kathryn Meyers and Mrs. Pierce of the Palm Springs Community hospital. The large, candlelit table was beautifully decorated with a three-tier wedding cake, surrounded by pink and blue daisies.

Hosts of friends were also on hand to extend congratulations and best wishes.

C. M. Woolley Retires from College Board

Clarence Mott Woolley, Palm Springs winter resident, has resigned as member of the board of trustees of St. Lawrence University, after 16 years of activity. Chairman Edward J. Noble of the board, announced this week.

Founder of the American Radiator company and one of the leading industrialists of the nation during the early twentieth century, Mr. Woolley has lived in Santa Fe, New Mexico, and in Palm Springs, during the recent years. His home here was at 1907 Mesa drive.

He retired from active business life several years ago.

Mrs. Grove in Village on Visit

Mrs. Catherine Grove, well known Villager, was in town the fore part of the week from Los Angeles where she is spending the summer months. She came back to the Village on business matters.

Later she plans to travel with relatives to Yosemite for a vacation stay.

Mrs. Grove was much excited by the prospects of becoming a "great grand-aunt" later this year. Her grand-niece, the former Mary Jane Chapp, who last year became the bride of Joseph Firment, is the expectant mother. The Firmments live in Los Angeles.

Oldest vehicles on the roads in 1946 were owned by farmers, a fourth of their trucks averaging 15 years and nearly half dating from 1935 or earlier.

Brazil has removed all price controls from coffee.

Evanston Girl Becomes Bride of John C. Hoover, Son of Prominent Winter Residents, in Midwest City

Miss Frances Carol Corper, daughter of Dr. and Mrs. Franklin Corper of Evanston, Ill., became the bride of John Cleary Hoover of Glencoe, Ill., and Palm Springs, in St. Lukes Church in Evanston Wednesday evening at an 8:30 wedding.

Mr. Hoover is the son of Mr. and Mrs. H. Earl Hoover, well known Palm Springs winter residents.

The Rev. Darwin Kirby Jr., of Schenectady, New York made the special trip from his parish to officiate.

For her wedding the bride wore ivory satin embroidered with seed pearls and a coronet of rose-point lace with a veil of princess lace. She carried a bouquet of stephanotis and white orchids.

Mrs. Roger Cushman, sister of the bride, was matron of honor and another sister, Cynthia, maid of honor. Bridesmaids were Miss Martha Bennett of Darien, Conn., Miss Jean Fannin of Steubenville, Ohio, Miss Dorothy Yeggs of Evanston, Miss Patricia Roach and Miss Charlotte Cleary of Highland Park. Miss Letitia Harrison, cousin of the bride, was flower girl. The attendants to the bride wore blue faille dresses and carried American Beauty roses.

Robert Cleary Hoover attended his brother as best man while another brother, H. Earl Hoover, Jr., ushered with Roger Cushman, Philip Corper, Manfield Cleary, Arnold McClay and Robert Johnson.

Many pre-nuptial affairs preceded the wedding. They included a luncheon given by Mrs. H. Earl Hoover at the Woman's Athletic club; a kitchen shower by Miss Jean Fannin and Miss Nancy Shutter; and a miscellaneous shower given by Mrs. Nicholas Harrison Jr. Other parties honoring the young couple were a dinner party at the Edgewater Golf club at which Mr. and Mrs. Philip Corper, Mr. and Mrs. Leon G. Poetter and Mr. and Mrs. Charles Burmeister were hosts.

Mr. and Mrs. H. Earl Hoover were host and hostess at a dance given in their Glencoe home and Mr. and Mrs. Mansfield Ralph Cleary entertained with cocktails at their home and a dance at the Exmoor Country club. Miss Dorothy Yeggs and Miss Patricia Roach were hostesses at a breakfast at Glenview club and Dr. and Mrs. Franklin Corper climaxed the round of parties with a bridal dinner given at the Glenview club.

Out-of-town guests at the wedding were Mrs. Sherlock McKewen of Scarsdale, New York, Dr. and Mrs. George L. Baxter of Glendora, Calif., Mr. and Mrs. Lionel Frank of Fort Lauderdale, Florida and Mr. and Mrs. Frank Gobson of Pointe aux Pins, Mich.

A reception at the Woman's club in Evanston followed the wedding. The young couple will spend their honeymoon in California and make their home in Evanston after September 1.

Major R. H. Fleet Host to Villagers

Doctor and Mrs. Joseph A. D'Alessio of Palm Springs were weekend guests of Major Reuben H. Fleet, founder of Consolidated Aircraft Corporation, at his experimental ranch in Escondido.

Major and Mrs. Fleet entertained a large number of friends at dinner and sound motion pictures in their home which was formerly owned by Harold Bell Wright.

To be as sweet and attentive as the average bachelor you've got to remain one.

Villagers Guests At Reception in Washington Area

Palm Springs in particular and the desert in general proved the principal topic of conversation at a reception in Silver Springs, Md., recently when several Villagers met as guests of Capt. G. Lynn Woodruff, USN, retired, and Mrs. Woodruff.

Guest of honor at the affair was Mrs. Marian White of Palm Springs, who is now visiting in Washington, D. C., and is houseguest of Capt. and Mrs. Woodruff. Mrs. Lela Lane Stanley of Los Angeles, formerly of Washington, also a houseguest, shared with Mrs. White.

Among the guests were Congressman John Phillips and Mrs. Phillips, residents of Banning, and Lloyd Mason Smith, director of the Desert Museum here.

Mrs. White left the Village a few weeks ago to visit in the national capital and other eastern points. She will return here in the fall. Mr. Smith is in Washington to attend a national museum directors' meeting. He has just completed a tour of ancient Indian ruins in Arizona and New Mexico which he describes in his column, "Hammada," appearing in The Desert Sun. He also will return to the Village early in the fall.

O. S. McKinneys Vacationing on Eastern Coast

Vacation on the east coast with their daughter, son-in-law and three granddaughters is proving a lot of fun and pleasure for Mr. and Mrs. O. S. McKinney of Palm Springs, who, with their son, Ted, left here by auto and trailer the first of the month for the east.

En route they stopped to visit friends in Missouri and Cincinnati, Ohio. They arrived at Point Lookout, Md., to visit their daughter and her family, the Robert Moores, on June 16.

THE TRIP EAST was without incident except for the steady rain they experienced all through Kansas and at Jefferson City, Mo., where they had to ford high water which lapped the running boards.

Ted McKinney plans to return to Palm Springs soon and go to Long Beach for the remainder of the summer. Mr. and Mrs. McKinney will remain in Maryland for a few weeks with their daughter and her family.

THE NATIONAL Capital will lure them and they plan visits to various points of interest in Washington, D. C. On their return trip they will visit Niagara Falls and return through Michigan, Wisconsin and Minnesota, planning fishing trips in those states in the many streams and lakes available. They will hit the coast at Portland, Oregon, for salmon fishing and then head south.

Their son-in-law, Lt. B. P. Moore is in the Naval Air corps, stationed in Maryland but hopes to be transferred west soon.

Mrs. Moore is the former Barbara McKinney. The couple have three daughters who are proving a great joy to the visiting Villagers, their grandparents.

A little more than 2 and a half acres of reasonable good land per person is required for an adequate nation diet, according to some nutritionists.

About 88 per cent of the U. S. supply of oil is produced in six states: Texas, California, Louisiana, Oklahoma, Kansas and Illinois.

Ivory does not come solely from elephant tusks. A good quality also is produced by the hippopotamus, the narwhal whale, and the walrus.

Banning Justice Court To Get Remaining Sarthou Hearings

Banning Justice court will be the backdrop for the second and third jury trials of Alexander Emil Sarthou, charged with disturbing the peace of his neighbors here in Palm Springs and driving an automobile while under the influence of intoxicating liquors.

The disturbing of the peace charge has been definitely set for July 30, it was announced, and a tentative date for the DWI complaint has been placed on the court's calendar for July 7.

FOLLOWING Sarthou's first conviction in the Palm Springs justice court, he was successful in winning a change of venue to Banning on the grounds that an unprejudiced jury could not be obtained here to listen to evidence in the second similar charge and DWI accusation.

Sarthou appealed Judge Eugene E. Therieau's sentence and the jury's verdict that found him guilty at the conclusion of his first trial. This matter will appear on the trial docket of the Riverside Superior court at some future date, it was declared.

The wealthy Porterville farmer and packer was sentenced to thirty days in the county jail by Judge Therieau with the proviso that 25 days of the sentence would be suspended if he paid a

fine of \$250 but that the defendant would have to serve 5 days of the sentence in the county klink.

BRAND NEW HOME

Three bedrooms, 2 complete baths with tubs and showers. Large living room with fireplace. Asphalt tiled floors in kitchen and baths. Exceptionally well built. Well worth \$20,000. Will sell this week for only \$14,500 on easy terms.

VACATION This Year At

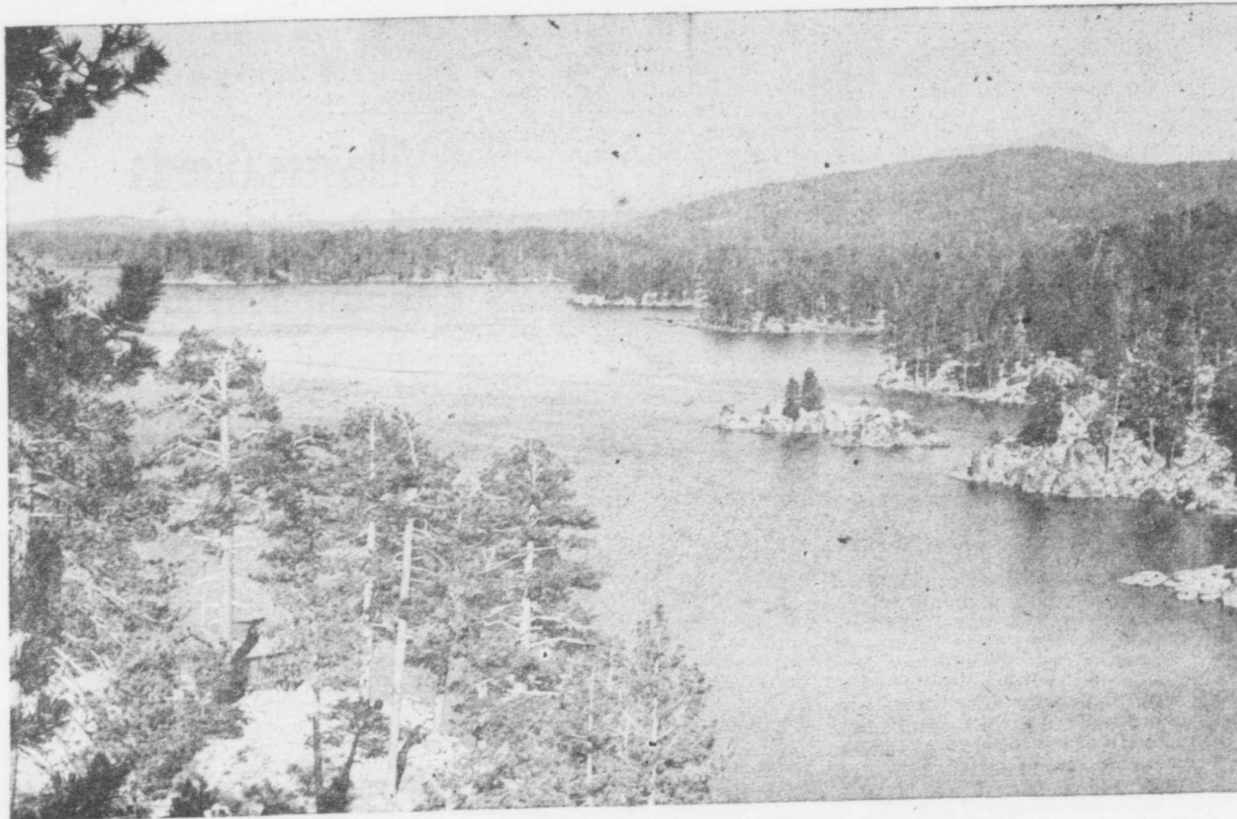

BIG BEAR LAKE

Bear Valley Ranch Day July 4th

Big Bear Lake and vicinity is really out to give its customers their money's worth of authentic Western atmosphere this July 4th. Since the usual Fourth of July fire-works won't work there because of the fire hazards involved, the local folk, backed by the Big Bear Chamber of Commerce, are putting together a first-rate day of entertainment for all to enjoy, and it's ALL FREE!

"Little Bear" herself has been combing the back woods for weeks selecting and choosing the real old timers of the true West to put in her "pee-rade" and believe us, she'll have the real thing with noooo Commercialism!

So all of you folks who crave a July Fourth just a little different, but one that'll be enjoyed with a BANG-UP time for all, even without the fire-works, come on up to the mountains this Fourth and have real fun and a time you'll long remember!

WHERE FRIENDS MEET

The Fourth of July at Big Bear this year will be fun and also crowded—so make your reservations now for accommodations. Remember that you can have a good time in this wonder vacationland anytime, both summer and winter. This happens to be the busiest season of all, however, and a timely suggestion at this point might prove beneficial. Take advantage of the fore part of the week in planning one, two, or three day trips, for better reservations and fishing facilities.

Junior Boys To Meet Gay 20's This Evening

Junior Boys Club, recently organized and getting under way, will meet the Gay 20's of the City league who drew a bye in this week's play, at the Field club in a practice game tonight, Frank Partridge, recreation director, announced today.

The Junior Boys' club last week defeated St. Boniface of Banning 15 to 4 in a game played here and plan a game next week against an Indian outfit.

The new club plans an active summer season.

Managers Meet Tonight to Talk Over Loop Rules

Managers of City League ball clubs will meet with Frank Partridge, recreation director, at Bill Marvin's Sporting Goods store tonight in an important business session.

Plans for the league will be discussed and rules and regulations brought down to date.

All managers are urged to attend the session which is called for 6 p. m.

The Telephone Man's Assignment . . .

THE telephone man has been meeting emergencies continuously for the past five years, and his workers and management have formed the habit of solving seemingly unsolvable problems.

His present assignment, still an exciting challenge packed with complications and perplexities, may be divided roughly into five parts:

To maintain a high quality of service in the face of material shortages and expanded telephone usage.

To provide service to an abnormal number of new applicants.

To upgrade service, that is, reduce the number of parties on a single line (during the past few years many persons had to take multi-party line service in order to get any at all).

To keep pace with technical developments accelerated by war discoveries.

To maintain satisfactory financial returns to workers and stockholders, and reasonable rates to subscribers, in spite of rising costs.

But the telephone man is taking this assignment in his stride, as Americans always do, and is solving his problems step by step, all of them except, perhaps, the problem of rising costs.

California Water & Telephone Company

Sports

Mexican Colony's Ball Club Downs Boys' Club, 15-4

Palm Springs Boys' Club, winners of the first City Softball Loop without losing a game, won't be able to establish the same record in the second league which got under way Monday night.

The Mexican Colony team turned on them in that game before a large crowd at the Field Club and walked away with the pleasant end of a 15 to 4 score. The game followed presentation of a trophy to the Boys' Club for their prowess in the first league. (Picture on Page One).

THE TROPHY tucked away for safe keeping, the Boys went into the game with vim and vigor. They were the "visiting team" and batted first. Before the Colony team could subdue them they had three runs across and it looked like a repetition of the opening of the first league when the Boys won 5 to 1 over the same rivals.

But from the second to the sixth, things happened and not to the liking of the Boys. Jurado walloped a home-run with one on in the second when the Mexican lads scored three times.

THAT, HOWEVER, was just the beginning. The winners grabbed another marker in the third and in the fourth manufactured five runs out of five hits, including Frank Prieto's two-bagger, and in the sixth, laid on the ball for six hits and six runs.

While all this was going on, Frank Prieto was hand-cuffing the Boys with neatness and dispatch. He allowed only four hits and kept out of trouble throughout.

The line score: **R H E**
Boys' Club 3 0 0 1 0 0—4 4 5
Mexican Col. 0 3 1 5 6 0 X—15 13 3
Crossley and Sanderfer; Prieto and Canales.

CITY LEAGUE STANDING

	P.	W.	L.	Pct.
Mexican Colony	1	1	0	1000
Lions Club	1	1	0	1000
Gay 20s	0	0	0	000
Boys Club	1	0	1	000
Desert H. S.	1	0	1	000

RESULTS THIS WEEK
Mexican Colony 15; Boys' Club 4; Lions Club 6; Desert H. S. 3.

GAMES NEXT WEEK
Monday—Gay 20s vs. Boys' Club.
Wednesday—Mexican Colony vs. Lions.

There's a New Baseball Outfit Operating Here

There's a new baseball club in operation in town.

The Giants—members of the Boys' club whose ages range from eight to ten years.

They've got resplendent new uniforms, too—cost them \$2.75 each.

They'll play the newly organized Colored Girls' club as a preliminary to a city loop game next week.

Banning Loses to All Stars 7-5 in Fast Contest Here

Banning's entry in the County League and the Palm Springs All-Stars, the Village's hopefuls in the same circuit, staked a preview of next Tuesday night's regular league game when they met in practice encounter at the Field club Tuesday night.

The Villagers took the game 7 to 5 but almost booted it away with five juicy errors. Olvera, who did mound duty for six innings allowed only three hits and Prieto who finished up the game, whiffed three men on ten pitched balls in the last inning.

TWO HOME RUNS by the All-Stars practically did the business. Frank Gaudiello accounted for three runs in the third with a four-ply blow with two on and Cowart hit one with one on in the fourth. Don Allen's two-sacker and singles by McGonigle and Duffy in that round backed up Cowart's wallop to score four runs.

It was not a regular league game and if Banning whops the Stars next Tuesday night at the Field Club—that will count in the standings for Tuesday night's clash between the same teams in a regular loop contest.

BANNING drew a bye in the circuit this week and wanted the practice and so did Palm Springs which met Indio last night here in a loop game.

The line score: **R H E**
Banning 2 0 1 0 0 2—5 3 2
Palm Spgs. 0 0 3 4 0 0 X—7 10 5
Neilsen and White; Olvera, Prieto and Don Allen.

Borrego Sales Brisk, Report

Robert Ransom, Harrison R. Baker and Fred W. Marlow, sales agents for the multi-million-dollar Borrego Springs desert resort community—"America's Last Desert Frontier"—today revealed facts contained in the company's first semi-annual report of progress to property owners.

"Sales were in excess of \$500,000," Ransom said. "This is more than double our original estimate. Twelve miles of paved roads have been completed throughout the tract. A deep well pumping in excess of 1200 gallons of pure fresh water per minute has been installed, as well as nine miles of water mains and utility lines to Units A, B, and C.

Why let an Oriental dictatorship, a group of men afraid for their lives, intimidate us? Let us go after the U. S. S. R. precisely where she is weak—on despotism, on dictatorship, on absence of majority rule.—William F. Russell, Columbia U. Teachers college dean.

Parties in many cases accept all the votes they can get from women and then quickly forget about them until the next election rolls around. That's the sort of thing we are fighting against.—Miss Edessa Dahlgren of New York, chairman Multi-Party Committee of Women.

And we rejoice in the general happiness, prosperity, and advancement of our country, which has been the off-spring of freedom, and not of power.—James K. Polk.

The tenant of the remotest log cabin upon the verge of civilization is within reach of newspapers recording the passing history of the world.—Lewis Cass.

Isn't That Always the Way!

Boys' Club Receives Nice Trophy Monday for League Victory; Also Receives Lacing

Doesn't it always happen that way?

The Boys' Club baseball team which "roared through the first City Softball league which came to an end a week ago Monday night without losing a game, had a trophy coming as a result.

Monday night that trophy was presented in ceremonies at the Field Club before a large and enthusiastic throng of Village fans.

City Manager William E. Alworth, Bob Bennett, night baseball commissioner, Frank Partridge, newly appointed recreational director for the city, and

Lions Win Speedy Night Loop Game From Hot Springs

Palm Springs Lions' club baseball team gave evidence of new life Wednesday night and played the way the team did last year when they grabbed off all of the honors. They had their batting eyes back and displayed the old agility in fielding. As a result Desert Hot Springs bowed 3 to 6 in a City League game at the Field club.

A four-run outburst in the last of the first put the game in the refrigerator for the service club men.

WITH ONE AWAY, the next five Lions rattled singles all over the lot and four runs came across the plate. Shea, Hubbs, Herrera, Gardello and Hough powered the one-basers which turned the paths into a merry-go-round.

Desert Hot Springs came back with a pair in their half of the second when Mooney tripled and scored on Gaudiello's single. Poist doubled to score Gaudiello.

TWO DOUBLES, one by Watson and one by Hubbs added one for the Lions in the second to make it 5 to 2.

For the next three innings it was fast and furious with neither side being able to get on and do much.

In the sixth, the Hot Springs lads fashioned another one when Mooney singled, stole second and scored while they were throwing the ball around.

THE LIONS' final ace came in the last half of that round on a single by Hough who ambled in when Gardello whammed one for three bases.

It was a good game to watch and there were plenty there to watch it.

The line score: **R H E**
Hot Springs 0 2 0 0 0 1—3 6 2
Lions' club 4 1 0 0 0 1 X—6 9 3
Gray and Lowe; LaRue and Gardello.

Students, Planning Summer Jobs, Told To Procure Cards

M. R. Johnson, manager of the San Bernardino field office of the Social Security Administration said today that, all students who plan on working during the summer vacation should obtain a Social Security number. Application forms may be obtained at the local Post Office, or from the Social Security Administration in San Bernardino. All students who had a Social Security account number card and lost it may obtain a duplicate by completing the same type of application.

Johnson again urged, that all holders of Social Security numbers should be careful not to lose their cards because the card will be needed in the event of change of employment. In addition, obtaining a duplicate card requires about two weeks.

The San Bernardino field office is located at 320 E Street in Room 403, of the Anderson building.

3-Day Celebration Slated at Banning To Start July 4

Cordial invitation to Villagers has been extended by Banning to attend the "Pioneer Days" celebration to take place in that city July 4, 5 and 6.

Official opening of the event will be a colorful parade at 10 a. m. down Banning's main street, on July 4. Other events to take place during the three day celebration will be: a gymkhana, barbecue in George Street park, Mexican fiesta of dancing, entertainment and exhibitions; a soap box derby, fireworks display, miniature air show and a midway, studded with many side-shows.

Retirement pay of a federal civil service employee is not exempt from income tax.

32 Speakers at Lions' Session

A large gathering of members of the Palm Springs Lions club lunched, kidded and discussed affairs of the Village at their informal summer meeting yesterday noon at the Chi Chi. There was no speaker except 32—there being that many Lions present.

The club is meeting each Thursday noon throughout the summer in the Blue Room of the Chi Chi.

Ray Sorum is president of the club.

MORE ABOUT . . .

Legion Permit . . .

meeting place for Legion members, but for the staging of many Village civic events.

THE AUDITORIUM is expected to seat approximately 400 persons and the kitchen facilities capable of feeding almost that many people. There will be room in the building for the Legion Auxiliary to meet and a club room for the members. Social events will be staged there as well.

Still ahead of the Post, is the cost of furnishing the building, once it is completed. Plans to accomplish this will see the members staging events in the building, even though partially furnished, to raise sufficient funds.

THE ERECTION of the Wars Memorial building will be the climax to an almost four year struggle on the part of the Legion to raise the money—approximately \$30,000 now in its treasury, to pay for the building.

PALM SPRINGS, CALIF.
Friday, June 27, 1947

The Desert Sun—7

When the campaign was first launched, the building goal set at that time was \$75,000 with a building twice as large as the one now to be erected. It was only this year, and quite recently, that the members voted to abandon the fight for the larger building and finance the construction of the building, plans for which are now being completed by the architects.

New Penalty on Taxes June 30

Villagers who have not paid their 1946-47 taxes in full should do so before June 30, according to County Auditor Ray T. Hicks, who pointed out that the 1946-47 taxes unpaid on that date will be subject to the new "State Redemption Fee" of \$2 for each individual parcel.

This fee is in addition to regular penalties, costs and interest charges now collected, and is covered in an amendment to Sections 4102, 4149 and 4653.1 of the Revenue and Taxation Code, as enacted by the State Legislature, Hicks said. It was effective as of June 13, 1947.

Blister beetles, ground into powder, once were used by physicians for blistering patients.

Deaths of pedestrians as a result of motor vehicle accidents are most numerous just after sunset.

Villagers Use Small Plane for Business
Jaunts to All Over U. S. in Speedy Time

It's getting so that hopping into the small plane and taking off for New York on business isn't any more of an item than stepping on the starter of the family auto and driving off to Riverside or Los Angeles for the day.

For instance, about two weeks ago, Mr. and Mrs. Winfield Line, well known Villagers, had business in Washington, D. C., New York and at Michigan State college, Michigan. There wasn't time for plans and reservations and so on.

A 6,400 MILE TRIP, covering 27 states, was hastily mapped out, bags were packed, a schedule set for definite appointments in Washington, New York and Michigan, and the Lines took off from Palm Springs airport for the east. They invited Mrs. Zaddie Bunker, Village pioneer and a flying enthusiast, to accompany them and she actually piloted the plane on 2,000 miles of the trip.

SIGHT-SEEING, as well as business, was on the agenda for the jaunt and the Villagers took two and one half days for the flight to Washington, stopping at New Orleans and in Florida.

The party spent three days at the national capital, three days in New York and two at Michigan State college and still were back here in two weeks from the time of the take-off.

HIGHLIGHT of the trip was the one and one-half day flight from northern Michigan across Lake Michigan and over the flooded fields, towns, highways and railroads of Wisconsin, Minnesota, Missouri, Iowa and Nebraska.

Line said that they ran into some rain, thunder storms and rough weather but:

"The only time Zaddie was frightened was during the taxi ride from the airport to the Hotel Astor in New York," he added.

ANOTHER business trip called them to San Francisco from Palm Springs last Friday. They were back here early Saturday.

The flight from the local port to the Bay city took them just about as long as Villagers take when they drive to Los Angeles.

"The small private airplane is more than a plaything," Line said. "That Bellanca of ours is just as much of a utility as the automobile."

June in Village

Dr. and Mrs. Harz
Say It's Fine Time

Stay through May?
What about June—or even part of July?

Dr. and Mrs. George Harz of Chicago who have been spending many winters in Palm Springs think it's great here right now. They arrived the last end of May and are staying all through June, planning to leave for the east on July 4.

"I like the heat," said Dr. Harz. Mrs. Harz is noted in the mid-west for her humane work. She founded the North Side Animal Shelter in Chicago in 1929 and it has been publicized often in Chicago newspapers.

Dr. Harz, veterinarian, has been active in the Chicago area for 35 years.

They are spending June here at 461 South Palm Canyon drive.

The ice cap on Greenland is more than a mile and a half thick.

What Goes on in Palm Valley

By DON CAMERON

At Palm Village this week the Coachella Valley Home Telephone and Telegraph company was rushing completion of the new telephone exchange. By October they plan to have in operation an ideal telephone service for all of the Palm Valley area. Dr. H. S. Hanson of the Cochran-Oddum Ranch has in the blue print stages plans for his new business and professional arcade. Hector Tate is the architect on this proposed development.

Norman Williams and Bill Godlove said to be sure and emphasize the fact that last Friday's windstorm so highly publicized in the Los Angeles papers didn't even displace a blade of grass in our beautiful valley.

Last Tuesday evening between 6 and 9:30 p.m. Bob Keedy tells me his Palm Village Market was again broken into. This time for about \$200 in cigarettes and the intruders left the walk-in-ice cream boxes open making soup of gallons of ice cream.

the new building. Otherwise good old Route No. 1 serviced by our own Delpha Ferguson will remain the same.

Incidentally back in 1939 I managed to get 30 signers to a petition and after Washington looked it over, had the service changed from three times a week to daily service. Also had the route extended so it came up to the Rancho Mirage office. During the intervening years we have enjoyed swell service. Our newspapers, magazines and mail are there every morning by 10:00 o'clock.

AT A RECENT meeting of the Desert Ocean Highway association, C. E. Bunker was elected president replacing Frank Tebo of Indio. The other officers were Harry Woods of Borrego, First Vice President, Clark Devaney Anza, second vice president, Clarence Washburn, Indio, secretary-treasurer. This is the road which makes Oceanside just 99 miles from Palm Dell office via Palms to Pine Highway, Anza, Calhulla, Aguanga and Fallbrook. At the next meeting in Oceanside on August 3 the members expect to have some definitely favorable news on the long sought surfaced Highway.

Dave Lyons, owner of Mr. Dee's writes that his new spot at 101

The Desert Sun—9
PALM SPRINGS, CALIF.
Friday, June 27, 1947

Union Avenue, Bakersfield, opens tomorrow night. He said most of his Palm Springs staff would be on the job.

I read in this fine "Desert Sun" where I'm the head of a committee putting on a grade A hayride tonight at the Tennis Club. If the Desert Sun says so, it must be true, so come on out and have fun.

Personals

Charles Valentine, active in Republican circles in the county and a resident of the county seat, was a visitor in Palm Springs Wednesday.

Mrs. Billie Caldwell of Rancho Mirage, is in Kenosha, Wis., on a brief vacation. She went east to attend the wedding of her brother.

Palm Springs Rotarians met Wednesday noon at the Chi Chi for their weekly luncheon. There was no set program but there were several visitors from out of town Rotary clubs.

The sun has a surface temperature of 6000 degrees Centigrade, and an interior temperature of 70,000,000 degrees.

Macaroni, spaghetti, and noodles are made from durum wheat. The 1946 crop of this commodity was the largest in three years.

Village Youth Now Serving in Japan

Rumaldo V. Puentes, son of Mr. and Mrs. Jose Puentes, 372 East Andreas road, who entered the army last September, has been promoted to private first class, according to army notices this week. He is serving with the artillery in Japan at present. First training with the artillery at Fort Bliss, Texas, he was shipped overseas and while in Japan qualified as a paratrooper. Pfc. Puentes plans to continue his studies after his discharge.

HAMMADA

LLOYD
MASON
SMITH

OUT OF ARIZONA— PART VIII

We arose early, breakfasted, and re-visited the Museum to meet the Park Naturalist, Floyd Keller, who had been away yesterday. Then, after a short visit with him, we continued on our tour through the Petrified Forest. We by-passed the Second Forest and stopped at the First, where formerly stood the famous Eagle-nest Rock which was blown-down early in 1941. Next the Agate Bridge and Pedestal Rock and on to the Blue Forest, named by John Muir because of the bluish-gray color of the bentonitic soil there, not because the petrified wood is blue there.

Newspaper Rock claimed our attention next and then the Puerco River ruins, with its famous Stork drawing, thought by some to be the prehistoric Indian version of a stork bringing a baby in its bill! More conservative opinions say it's really a heron eating a frog. Through the Puerco checking-station, we continued on north to the Painted Desert, and the beautiful Inn on the brink of the lava-flow overlooking the desert. This magnificent building was constructed entirely by the CCC boys back in 1940 and 1941, and just this June was taken over by the Harvey Houses to operate as another link in their long chain of restaurants and hotels across the Southwest. I can remember the day it opened its doors to the public for the first time, the summer of 1941. It was an informal opening for such a splendid structure, located as it is on the very edge of the vast expanse of arid badlands called the Painted Desert. And 'way out there in the midst of all this great aridity is the Black Forest, where the preponderance of the wood actually is black, a type of onyx due to a quantity of manganese in the overlying soil in that area that stained the wood black. For the color of petrified wood is not due to different types of trees, but to mineral stains after or during petrification. In Arizona, it is two minerals that cause all the colors: manganese, the black or gray; and various forms of iron, causing hues ranging from yellow through orange and brown to brilliant jasper red.

THE WHOLE THEORY of petrification was quite recently changed. Formerly, it was thought that all the wood material was dissolved away and replaced by minerals. However, laboratory research, by dissolving petrified wood in a strong acid, has revealed that the woody tissue is still actually present, not replaced. In other words, petrification is a super-saturation of wood with mineral, usually quartz, and the wood cells still persist in spite of the rock-like exterior and properties.

From the Petrified Forest, we continued on east on Highway 66 to New Mexico, through Gallup and on to Albuquerque. Here we stayed all night, and on the mor-

"I RISE TO REMARK"

By CONGRESSMAN JOHN PHILLIPS

The first bill of major importance in this session, in the making of which I have had a personal part and personal responsibility, came to the floor today. It is the appropriation bill for "Independent Offices." I have told you that this bill contains appropriations for two dozen or more agencies, including the Veterans Administration, War Assets, Maritime, FCC, FWA, FTC, FPC, Civil Service, Archives, Atomic Energy, on down to the Franklin D. Roosevelt Memorial Library at Hyde Park, and including the President's salary and expenses, and the expenses of the White House. The requests totaled \$8,498,409,579. This amount had been reduced \$576,075,000, on the basis of subcommittee suggestions, before we finally marked up the bill. In addition the subcommittee took off \$330,540,732. The subcommittee cancelled previous appropriations and took back income, to an additional \$505,075,000. The grand total reduction from the President's original budget estimate was \$1,411,690,732. It took ten weeks of daily work. We worked most Saturdays, and Memorial Day!

The hardest job was the Vet-

row began our longest drive of the whole trip east, on which stretch we covered 1,100 miles in two days. But never again! We were both so travel-weary by the end of that second day that it wasn't worth it.

From Albuquerque to Amarillo and on to Oklahoma City that same night. Then from Oklahoma City to Fort Smith and Little Rock, and on to Memphis the next. At Little Rock I drove out to Camp Robinson where during the war I spent nearly a year and a half as drill sergeant in the Medical Replacement Training Center there. But the camp was closed, so I could not renew old memories. We did eat our dinner that night in Franke's Cafeteria, where I used to eat every night I could get away from the camp. It, at least, had not changed. I phoned an old friend of mine with whom I was at the Ephrata Army Air Base in the state of Washington, but he had in interim married and was on a second honeymoon in Penticton, Canada!

OUR "TOURIST COURT" at Memphis was in reality but a made-over garage, and not much made-over, at that. Still, it was the only vacancy we found, and having driven so far, we were thankful for any kind of a bed. We didn't camp-out because it had begun to sprinkle. The first thing we noticed after dark were the fire-flies, those odd beetles that shed their intermittent ghostly lights in flight as they wing slowly about among the trees and over the fields. I wish they were to be seen in Southern California. I can well recall how startled I was when I first saw them on bivouac in Arkansas during the war. Those, and the glow-worms, I think I remember above all else. Leaving Memphis fairly early, we headed northeast to Nashville and thence due north to Bowling Green, Kentucky. Our goal was Mammoth Cave, National Park, only recently made a park. At the large hotel there when we registered, the assistant manager happened to glance at our names and noted our address, he immediately came over and introduced himself. "Our manager used to be at the Desert Inn in Palm Springs and I know she'll want to meet you." When we brought our baggage in, there was the manager, Mrs. Sanford, awaiting us. Never have we met more cordial people. They made us feel right at home and insisted that we stay at the hotel at no expense. That evening we attended the Park Naturalists' informal lecture in the hotel building, and at its conclusion, I showed my reel on Palm Springs. It was very well received and several in the audience came up afterwards to ask further details about the Desert Museum and its activities.

After a sound sleep, we arose early, eager to be off on our next adventure, our first trip through the famous Mammoth Caves. TO BE CONTINUED
(Copyrighted 1947 by Desert Museum)

eran's Administration. That alone was 85% of the budget. Three quarters of that was to underwrite allowances, pensions, and fixed charges written into laws, by the Congress from time to time. The job of the Appropriations Committee is only to finance them! The subcommittee was determined not to take any money, or any benefits, or any services, from the veterans, but only to suggest economies in certain administrative areas, and to see that the veterans and the taxpayers got full value for every dollar spent. With 20,000,000 veterans in the United States, and an average of four people in a family, and with parents and close relatives, we can easily see that the words "veteran" and "taxpayer" are nearly synonymous.

I can recall when \$7,075,341,300, the amount given the Veterans Administration, would have covered the entire Federal Budget. We could well give a little serious thought to that fact. It will not surprise those readers who have known your Congressman from the old SRA days to hear that the word is around among the agencies that the happy days of New Deal spending are over. Budget officers are being told to be prepared to justify their requests. Poor accounting systems, and little matters of "overlooking" an item of \$37,000,000 (which the Maritime Commission did) are now embarrassing. The agencies with clean accounts and honest budgets come and go without fear. The others may take for their spokesman the commission member who said to the chairman that every day since his appearance before the sub-committee, he had hung his head in shame.

I quote briefly from the report: One of the most amazing pieces of testimony is that of the General Accounting Office that almost nowhere in the government is there any semblance of cost accounting; that billions have been spent that can never be properly accounted for. . . . The ratio of personnel employees to the total personnel in each of the several agencies ranged from a maximum of 1 to 18 to a minimum of 1 to 121. . . . The Veterans Administration has a tremendous problem to deal with. The great demobilization period is past. The time has come to establish efficiency in administration. . . . There is no justification for any agency of government submitting such involved and confused statements that the committee should be required to expend funds for the services of expert accountants actually to go into the records and develop basic data. Every agency should consider it to be a first responsibility that its data be clear, concise and accurate. The reverse process appears to have been the policy of the Maritime Commission. . . . these are samples from a 49 page report.

The rewards are many for the hard work of weeks. The chairman of the Appropriations Committee called the finished bill and report the best job done by any of the subcommittees.

The Democratic members of the subcommittee joined in a unanimous report in presenting the bill. The House itself took only about two hours for general debate instead of two days. Few if any amendments will be offered; none are indicated as I write this, except corrective amendments from the committee itself. There is apparently no opposition. Yet it contains over 8 billions in money, affects some of the most sensitive of the agencies, and shows savings of almost 1 1/2 billions to the taxpayers. "This means a saving of about 3 million dollars in taxes in the 22nd district or an average of about \$35 for each family."

Approximately 30 cents' worth of electricity is contained in the average flash of lightning.

John Deere, village blacksmith of Grand Detour, Ill., made the first steel plow in 1837. It's the literal truth that the initial cost of building a home is a lot.

From where I sit... by Joe Marsh

Crazy Hat

Wins Refrigerator!

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarrah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you could see he was proud of Sarrah.

From where I sit, there's another thing Ed can be proud of: the way he's put up with those hats of Sarrah's, with never a criticism; just

as she's put up with Ed's pipe and the other little freedoms he enjoys.

They've got that refrigerator home now, stocked with beer; and we're going over tonight to drink a toast—not just to Sarrah's hats taking first prize... but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!

Joe Marsh

FOR SALE: SURPLUS GOVERNMENT

RESIDENTIAL LOTS

and improvements, located at a portion of the
PALM SPRINGS ARMY AIR FIELD
PALM SPRINGS, RIVERSIDE COUNTY, CALIF.

The War Assets Administration invites bids for the purchase of the following specified Real Property now available under the Surplus Property Act of 1944, as amended and War Assets Administration Regulation 5 as amended.

Real Property consists of approximately

290 ACRES of LAND

and certain improvements subdivided into

FIFTEEN RESIDENTIAL LOTS

Varying in Size from 10 Acres to 20 Acres Each
and presently comprising the cantonment, warehouse, and administration areas of the subject installation.

These lots are designated by number on the Real Estate map of the PALM SPRINGS ARMY AIR FIELD, copy of which is now on file at the offices of the War Assets Administration listed at the bottom of this advertisement, and are more particularly described as lots or portions of lots number:—

4, 5, 11, 12, 13,* 14, 15, 18, 19, 20, 21, 29, 30, 31, and 32.

All located in section 13, Township 4 South, Range 4 East,

SBB&M, Riverside County, California.

*This offering specifically excludes the chapel building on Lot 13, which is being presently advertised for use off-site.

Terms and condition of sale and all necessary information concerning the property, the method of exercising priorities, and submitting offers will be available on and after June 23, 1947, at the War Assets Administration, Office of Real Property Disposal, located on the Third Floor, 155 West Washington Boulevard, Los Angeles 15, California.

The property is subject to the following priorities to purchase, in the order indicated:

1. FEDERAL GOVERNMENTAL AGENCIES
2. RECONSTRUCTION FINANCE CORPORATION (for resale to qualified small business)
3. STATE AND LOCAL GOVERNMENTS
4. FORMER OWNERS
5. VETERANS, OR CERTAIN SURVIVORS OF DECEASED VETERANS
6. NON-PROFIT INSTITUTIONS

PRIORITY PERIOD: The time for exercising the 1st, 2nd, and 3rd priorities shall be a period of ten (10) days commencing on June 23, 1947, and ending on July 3, 1947. The time for exercising the 4th, 5th and 6th priorities shall be a period of 90 days commencing on June 23, 1947, and ending on September 21, 1947. Persons not having a priority may also make offers during this period.

SUBMISSION OF BIDS: All bids must be made on the uniform bid forms provided for this sale and which may be obtained upon request, at the Los Angeles Regional Office of the War Assets Administration, Office of Real Property Disposal, Third Floor, 155 West Washington Boulevard, Los Angeles 15, California. Bids not submitted on these specific forms will not be accepted.

Bids must be accompanied by a cashier's check, certified check, or U. S. Post Office Money Order made payable to the Treasurer of the United States in an amount representing 10% of the total amount of the bid, unless the bid is less than Fifty (\$50.00) Dollars, in which case the full amount of the bid must be paid. No deposit in excess of Twenty-Five Hundred (\$2,500.00) Dollars is required. No deposit is required from the first, second, third, fourth, and sixth priorities, but all others must comply. Bids may be submitted for one or any number of lots but the separate amount must be bid for each lot.

Sealed bids for the purchase of these residential lots will be received by the War Assets Administration at the address listed at the bottom of the advertisement, until 11:00 A. M., PST, September 23, 1947, at which time and place all bids will be publicly opened and read.

The disposal of this property is subject to the reservation to the United States of certain mineral rights. Each bid shall be enclosed in a sealed envelope, addressed to the War Assets Administration at the address given below, and marked "Bid No. RLA-PD-15".

War Assets Administration reserves the right to sell and remove buildings and improvements located on said residential lots and to reject all bids. No bids will be considered unless prepared on the specific bid forms that are provided for this purpose.

To obtain your bid form and all information for the inspection of this property, address:

Vacation --VIEWS--

"Camera-Wise" Vacationists take
lots of pictures—and they're al-
ways glad they do!

Films Still Scarce
So Stock Up NOW—
from Our Supply!

And when you come in—bring your camera
and fit it with a leather case—for vacation's
rough handling.
